Sewerage and Water Board Observes National Drinking Water Week

New Orleans, LA-Sewerage and Water Board of New Orleans, the American Water Works Association and the water community kicks off Drinking Water Week across North America today by asking New Orleans the question "What do you know about H₂O?" National Drinking Water Week is celebrated May 3-9, 2015.

Throughout the week the Sewerage & Water Board of New Orleans and water community partners will celebrate the value of water by learning about the role it plays in our daily lives and in the quality of life we enjoy because of it. Special attention will be given to the ways in which water consumers get to know their H₂O during this week.

For more than 35 years, AWWA and its members have celebrated Drinking Water Week – a unique opportunity for both water professionals and the communities they serve to join together to recognize the vital role water plays in our daily lives.

For more information call 585-2169.
